

DIANA LELONEK

Diana Lelonek, b.1988, graduated from the department of Photography in the Faculty of Multimedia Communication at the University of Art in Poznan (PL). Phd at Interdisciplinary PhD Studies, University of Art in Poznań.

Diana Lelonek explores relationships between humans and other species. Her projects are critical responses to the processes of over-production, unlimited growth, and our approach to the environment. She uses photography, living matter, and found objects, creating work that is interdisciplinary and often appears at the interface of art and science. She participated in several international biennale, festivals and group shows at: Riga International Biennale of Contemporary Art RIBOCA; Edith-Russ-Haus for Media Art, Oldenburg; Center of Contemporary Art, Warsaw; Kunstraum Niederoesterreich, Vienna; Temporary Gallery, Cologne; Ballarat Photography Biennale, Australia; Tallinn Art Hall; Culturescapes Festival, Basel; Musee de l'Elysee, Lausanne.
